A Partnership Platform for Impact

Empire Unlimited GTZ is a Canadian non-profit organization developing initiatives across humanitarian action, education, health, empowerment, sustainable development, research and international cooperation. Our approach is to connect community needs with institutional, academic, and private sector capacity.

Organization granted Special Consultative Status with the United Nations Economic and Social Council (ECOSOC) since 2026.

Why work with us?

- Access community-focused initiatives that can be aligned with corporate social responsibility (CSR), ESG and employee-engagement priorities.
- Co-develop practical projects rather than limiting the relationship to one-time donations.
- Support education, skills development, research, humanitarian action, and sustainable development initiatives.
- Create opportunities for employee volunteering, professional expertise, mentorship, workshops, and in-kind contributions.
- Build visible, documented collaborations with defined objectives, deliverables, and reporting.

Our value proposition

FOR COMPANIES	FOR COMMUNITIES	FOR EMPIRE UNLIMITED GTZ
Structured social impact opportunities, community visibility, and employee engagement.	Resources, expertise, learning opportunities, and stronger delivery capacity.	Long-term capacity, diversified funding, and stronger program execution.

Ways Companies Can Partner With Us

1. Program Sponsorship

Fund or co-sponsor for a defined education, humanitarian, health, sport, research or community initiative with an agreed scope and reporting framework.

2. Corporate Giving

Provide unrestricted or designated contributions to strengthen program delivery and organizational capacity.

3. In-Kind Support

Contribute equipment, software, professional services, transportation, printing, venues, technology, or other operational resources.

4. Skills-Based Volunteering

Mobilize employees in finance, technology, communications, project management, research, administration, mentoring, or training.

5. Academic & Talent Collaboration

Support experiential learning, internships, student projects, mentorship and pathways connecting education with community impact.

6. Research & Innovation

Co-develop studies, needs assessments, pilot initiatives, impact measurements, or solutions linked to sustainable development.

Programs & Areas of Collaboration

Humanitarian & Community Action

Community outreach, emergency and social support initiatives, including work connected to vulnerable populations.

Education & Skills Development

Student placements, experiential learning, professional exposure, workshops, mentorship and capacity building.

Health & Well-being

Community-oriented initiatives, including awareness and mental health-related support activities.

Youth, Sport & Empowerment

Programs using sport, education and participation as tools for development and empowerment.

Research & Sustainable Development

Research support, scientific collaboration, project design and initiatives aligned with sustainable development priorities.

International Cooperation

Cross-border collaboration linking Canadian capacity with community and institutional initiatives abroad.

Example community collaboration

Empire Unlimited GTZ has developed community and project relationships that include initiatives connected with organizations such as Foundation Zizi Care, Alert Movement and AOA ASBL in the Democratic Republic of Congo. These relationships are presented as community/project collaborations, not as endorsements by unrelated institutions.

Institutional Ecosystem - Clearly Distinguished

The organizations and platforms below are intentionally separated by relationship type. A logo does not, by itself, imply sponsorship or endorsement.

Academic & experiential-learning relationships

Universities and educational environments connected to student, volunteer or experiential learning engagement.

Memberships, networks & institutional recognition

Organizations shown here relate to memberships, networks, accreditation/recognition contexts, or institutional engagement, as applicable. They should not be read as corporate sponsors.

Professional ecosystem

Professional bodies may appear relevant to the qualifications or professional-development environment of personnel. This does not mean the professional body sponsors or endorses Empire Unlimited GTZ.

Operational Infrastructure & Service Providers

Empire uses established third-party banking, payment, technology, and website services as part of its operating infrastructure. These are service provider/customer relationships unless a separate written partnership exists.

Banking & payment infrastructure

Digital infrastructure

Important distinction: TD, Scotiabank, Chase, Microsoft, QuickBooks and Wix are displayed as operational/service infrastructure. Their inclusion must not be interpreted as sponsorship, endorsement, or a formal corporate partnership with Empire Unlimited GTZ.

A Corporate Partnership Can Start Small

A strong collaboration does not need to begin with a large financial commitment. We welcome a first conversation to identify a practical area where your organization's expertise, resources and priorities intersect with a real community need.

A simple partnership pathway

01	DISCOVER — Identify shared priorities and the communities or themes your organization wants to support.
02	DESIGN — Agree on the project, contribution, roles, timeline, visibility and expected outcomes.
03	DELIVER — Implement through clear responsibilities, appropriate controls and regular communication.
04	REPORT — Document activities, outputs, lessons learned and next-step opportunities.

Let's build something useful together.
